<i>Preface</i>	<i>ix</i>
<i>Workshop Participants</i>	<i>xv</i>
<i>About the Editors and Contributors</i>	<i>xvii</i>
<i>Acknowledgments</i>	<i>xxi</i>
<i>Abbreviations</i>	<i>xxiii</i>
1 Health Investments and Economic Growth: Macroeconomic Evidence and Microeconomic Foundations	1
<i>William Jack and Maureen Lewis</i>	
2 Health and Economic Growth: Policy Reports and the Making of Policy	41
<i>Sir George Alleyne</i>	
3 Population Health and Economic Growth	53
<i>David E. Bloom and David Canning</i>	
4 Disease and Development: The Effect of Life Expectancy on Economic Growth	77
<i>Daron Acemoglu and Simon Johnson</i>	

5 Disease and Development: Evidence from Hookworm Eradication in the American South	131
<i>Hoyt Bleakley</i>	
6 Early Life Nutrition and Subsequent Education, Health, Wage, and Intergenerational Effects	167
<i>Jere R. Behrman</i>	
Index	185
Figures	
1.1 Health Improvements and the Advent of Barefoot Doctors in China	6
1.2 The Preston Curve, 2001	8
1.3 Normalized Cross-Country Standard Deviations of Health and Income, 1960–2004	9
1.4 Income Growth and Infant Mortality Rate Reductions in China and India, 1960–2000	10
1.5 Cognitive or Schooling Deficits Associated with Moderate Stunting in Children Less Than Three Years Old from Six Longitudinal Studies	19
1.6 Returns to Different Levels of Education Based on Family Background	20
1.7 Returns to Different Levels of Education and Family Background	20
1.8 Absentee Rates among Health Workers in Select Countries, 1989–2003	29
2.1 Tons of Ore Mined per Worker per Day, 1923	43
2.2 Relationship between Output per Worker and Nutritional Status in Denmark	46
2.3 Growth Rate of Income per Capita, 1965–94	46
2.4 Age-Adjusted Death Rate per 100,000 Population from Diabetes in Caribbean and North American Countries, 2000	48
3.1 Income and Life Expectancy, 2005	55
3.2 Population in Sub-Saharan Africa, by Age, 1960–2040	62
3.3 Population in East Asia, by Age, 1950–2060	62
4.1 Log Life Expectancy at Birth for Initially Rich, Middle-Income, and Poor Countries, Base Sample	79
4.2 Log GDP per Capita for Initially Rich, Middle-Income, and Poor Countries, Base Sample	80
4.3 Change in Log Life Expectancy and Change in Predicted Mortality, 1940–80, Base Sample	99

4.4 Change in Log Life Expectancy and Change in Predicted Mortality, 1940–80, Low- and Middle-Income Countries	100
4.5 Change in Log Life Expectancy, 1900–40, and Change in Predicted Mortality, 1940–80, Base Sample	106
4.6 Change in Log Life Expectancy, 1930–40, and Change in Predicted Mortality, 1940–80, Base Sample	106
4.7 Change in Log of Population and Change in Predicted Mortality, 1940–80, Base Sample	109
4.8 Change in Log of Total GDP and Change in Predicted Mortality, 1940–80, Base Sample	112
4.9 Change in Log Life Expectancy at Age 20 and Change in Predicted Mortality, 1940–80, Base Sample	118
5.1 Hookworm Infection Rates Before and After Treatment at the State Level in Select Southern States and at the County Level in Alabama	138
5.2 Hookworm Eradication and School Attendance, 1870–1950	143
5.3 Cohort-Specific Relationship between Income and Pre-eradication Hookworm	152

Tables

2.1 Median Wealth by Self-Reported 1984 Health Status	44
2.2 Early Nutrition and Future Earnings	47
2.3 Possible Economic Burden from Diabetes and Hypertension in Caribbean Countries	49
3.1 Regional Time Trends in Adult Height, Infant Mortality, and Nutrition, 1961–85	64
3.2 Annual Growth Rate of Per Capita Income, by Income per Capita and Infant Mortality Rate (1960), 1960–2000	65
3.3 Prevalence of Preventable Neglected Diseases, by Region	68
4.1 Descriptive Statistics	90
4.2 Life Expectancy, Population, Births, and Percent of Population Under 20: OLS Estimates	92
4.3 Life Expectancy, GDP, GDP per Capita, and GDP per Working-Age Population: OLS Estimates	93
4.4 The Effect of Interventions on Disease Mortality: Zeroth Stage	98
4.5 Predicted Mortality and Life Expectancy: First-Stage Estimates	101
4.6 First-Stage Estimates: Mean Reversion and Robustness	104
4.7 Falsification Exercise and Reduced Forms	107
4.8 The Effect of Life Expectancy on Population, Total Births, and Population under Age 20: 2SLS Estimates	110

4.9 The Effect of Life Expectancy on GDP, GDP per Capita, and GDP per Working-Age Population: 2SLS Estimates	113
4.10 The Effect of Life Expectancy at Age 20 on Population, Total Births, GDP, and GDP per Capita: 2SLS and First-Stage Estimates	117
4A.1 Key Data for Base Sample	122
5.1 Summary Statistics	140
5.2 Hookworm and Human Capital: Basic Results	142
5.3 Hookworm and Human Capital: Sensitivity Tests and Results for Subgroups	145
5.4 Contemporaneous Effect on Adult Outcomes	147
5.5 Long-Term Follow-up Based on Intensity of Exposure to the Treatment Campaign	149
5.6 Exposure to RSC Versus Alternative Time-Series Relationships	154
6.1 Select Associations between Maternal and Infant Anthropometric Measures and Adult Outcomes	169
6.2 Effects of Exposure in the First Three Years of Childhood to <i>Atole</i> Relative to <i>Fresco</i> Nutritional Supplements on Guatemalan Adults Age 25–42 and on Their Offspring	175
6.3 Estimated Present Discounted Values of Seven Major Benefits of Moving One Infant from Low Birth Weight, at Different Discount Rates	178
6.4 Estimated Global Benefit-Cost Ratios for Opportunities Related to Hunger and Malnutrition	180
6.5 Project Rankings in 2004 Copenhagen Consensus	181
